

Upgrade Instructions

Trustix™ Enterprise Firewall 4.0

How to upgrade Trustix™ Enterprise Firewall 4.0 to the latest build level.

Dear customer,

To take advantage of the latest features in Trustix™ Enterprise Firewall 4.0, please follow these simple instructions to upgrade your installation.

Download the New ISO – Non Certificate based licences.

We have placed the new ISO image here
<http://download.trustix.com/firewall/4/iso/firewall-4.0.i586.iso>

You then have the capability to do a fresh install on your system. Details are included in the user guide in PDF format on the CD-ROM.

Upgrade via a .rpm package – Customers with Certificate based licenses.

We have a .rpm package available for you to upgrade your system if you are running the digital certificate version of the product. This rpm package should be requested from support so that they may provide separate installation instructions.

In either case should you have any problems or need clarification please contact support@trustix.com with your order reference details.
